- Had to take down the lights in the Black Boys car park due to a hazard with the height of the waste lorry.

- A third person in the leadership team required (an event manager and two deputies needed).

Dear Paul,

Aylsham Town Council considered your generous offer of a Christmas decoration for you building as part of the Christmas Lights season. We would be delighted to accept and we would be able to store the proposed decoration along with our other Christmas assets, and make this part of our 'lights up' and 'light down' events.

We will delegate any further decision to agree design etc to our Christmas Lights committee, which will next meet on Wednesday 15<sup>th</sup> April at 7pm.

We look forward to working with you on the project and can't wait to see the new decoration lit up. Thank you again.

Kind Regards

*Faye*

**Subject:** Christmas Wreath

Dear Aylsham Town Council Christmas Lights Committee,

I write with regards to a proposal for changing the light fixture that I have on the side of my building each year.

It's quite dated now and I would like to replace it with a wonderful custom made illuminated wreath. I am currently in the process of making enquiries with a company to have one made for us but ultimately, even though it would be for use on the side of our building, we would effectively be gifting it to the town and entrusting it to the care of the Christmas Lights

Team for storage purposes and of course, putting it up and taking it down each year.

So before I make any further enquiries regarding the wreath, I want to see if this would be acceptable to you?

The wreath would be 2.5m in diameter with a single fixing point. It would be illuminated and decorated. I have been advised that the lighting has the necessary IP Rating for it to be outdoors and a data sheet would be provided for your records. It will be made by a professional company that makes wreaths for major department stores across London. You can find more information about them here: <https://mkillumination.co.uk/>

We would also ensure that the wreath is maintained as time goes on so if the lights were to break, we would take responsibility for either fixing or replacing them.

Would you be able to advise if this would be acceptable to the council, please? I would be more than happy to meet with the Committee to discuss this in person if it would be helpful.

I think it would be a real talking point for the town and would look quite wonderful, particularly as you come up Red Lion Street.

I shall await your thoughts. Thank you.

With best wishes,

Paul Fisher
